date 5.15.08

Dear Judge ~~Forstzin~~

I have wrote out this letter and will get it notarized to inform my lawyer, my family and judge as well, about the situation I have just been thru on the date of 4.19.08. I'm a federal inmate being housed at the Nassau County Corr. facility, I've been here for a year now and go thru the same problem every other month.

I have sickle cell disease, it's a life long problem. I had went thru another crises on 4.19.08. I had made it to the medical unit to see a doctor at 9:20am 5 minutes after I came to see a dr. which is perfect.

The dr. examized me and determined I had needed better help at the hospital. He made the call to get me transported just 3 minutes away.

It took the sheriffs 2 hrs to get me there. I sat up in severe pain being tortured, it felt like I can't keep going thru that every time I get sick, the long hours of waiting because the longer I sit in pain the more I damage my body organs.

Thank You
Ashanti Harrell
